PROFESSIONAL SUMMARY

I am a motivated fresher with a strong foundation in Python Full Stack development. I have knowledge of backend technologies, databases, and responsive front-end design. I enjoy writing clean and efficient code and building scalable applications. I am looking for an opportunity where I can apply my skills, contribute to the organization, and continue learning and growing as a developer.

CORE SKILLS & TOOLS

Core Python	**Advance Python**	**PyCharm**	**Vs-Code**
MySQL	**HTML5 / CSS3**	**JavaScript(ES6+)**	**Git & GitHub**
Postman	**Django ORM**	**Restful APIs**	**React Js**

★ **AI Tools Proficiency:** *ChatGPT, Google Gemini, Claude AI, GitHub Copilot, Midjourney, Perplexity AI —leveraged for code debugging, boilerplate generation, and concept clarification during development.*

PROJECTS

Customer Service Provider System — *ASP.NET · HTML · CSS · SQL-Server*

- Facilitated communication between customers and service providers easy and organized.
- Implemented features like Registration, Complaint Submission, and Admin Panel.
- Designed a user-friendly interface to enhance user experience and accessibility.
- Improved system efficiency by organizing service requests and reducing manual work.

EDUCATION

Diploma in Computer Engineering | Gujarat Technological University , Government Polytechnic College , Himatnagar	*2017*
Class XII | Arya Jyoti Vidhyalaya , GSEB	*2014*
Class X | Shri.P.M.Kothari High School , GSEB	*2012*
